Notes to the Financial Statements

Foundation of the company, the purpose of the company and the accounting period

The company was founded on January 4, 2022. The company is an Alternative Investment Fund managed by EnvisionTech AS. The investment objective of the Fund is seeking to achieve long term capital appreciation through making sustainable investment within the meaning of SFDR Article 2 (17), meaning that the investments of the Fund, as further set forth in SFDR, shall follow good governance practices and further contribute to an environmental objective and/or social objective.

Note 1 Accounting principles

The financial statements have been prepared in conformity with the provisions of the Accounting Act and NRS 8 - Good accounting practice for small companies.

Currency

The accounts are presented in NOK which is the Company's functional currency.

Foreign currency

Foreign currency transactions are translated at the exchange rate on the date of the transaction. Monetary foreign currency items are translated to NOK at the exchange rate on the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated to NOK using the exchange rate on the transaction date. Non-monetary items that are measured at fair value in a foreign currency are translated to NOK using the exchange rate on the measurement date.

Tax

The tax charge in the income statement includes both payable taxes for the period and changes in deferred tax. Deferred tax is calculated at the tax rate at 22 % on the basis of tax-reducing and tax-increasing temporary differences that exist between accounting and tax values, and the tax loss carried forward at the end of the accounting year. Tax-increasing and tax-reducing temporary differences that reverse or may reverse in the same period are set off and entered net.

In accordance with the exemption rules for small enterprises net deferred tax assets are not capitalized.

Tax reduction on group contributions given and tax on group contribution received, booked as a reduction of cost price or taken directly to equity, are booked directly against tax in the balance sheet (offset against payable taxes if the group contribution has affected payable taxes, and offset against deferred taxes if the group contribution has affected deferred taxes).

Balance sheet classification

Current assets and short term liabilities consist of receivables and payables due within one year, and items related to the inventory cycle. Other balance sheet items are classified as fixed assets / long term liabilities. Current assets are valued at the lower of cost and fair value. Short and long term liabilities are recognized at nominal value.

Subsidiaries and associated companies

Subsidiaries and associated companies are valued using the cost method in the company accounts. The investment is valued at acquisition cost for the shares unless a write-down has been necessary. A write-down to fair value is made when a fall in value is due to reasons that cannot be expected to be temporary and such write-down must be considered as necessary in accordance with good accounting practice. Write-downs are reversed when the basis for the write-down is no longer present.

Dividends, group contributions and other distributions from subsidiaries are recognised in the same year as

Notes to the Financial Statements

they are recognised in the financial statement of the provider. If dividends / group contribution exceed withheld profits after the acquisition date, the excess amount represents repayment of invested capital, and the distribution will be deducted from the recorded value of the acquisition in the balance sheet for the parent company.

Receivables

Receivables from customers and other receivables are entered at par value after deducting a provision for expected losses. The provision for losses is made on the basis of an individual assessment of the respective receivables.

Note 2 - Number of employees, remunerations etc.

The company has no employees.
