Notes

Note 1 Accounting principles

The semi-annual accounts have been prepared in conformity with the Accounting Act and NRS 8 - Good accounting practice for small companies.

Currency

The accounts are presented in NOK which is the Company's functional currency. Transactions in another currency are translated at the foreign exchange rate at the dates of the transactions. Monetary items in another currency are translated into NOK using the foreign exchange rate at the balance sheet date. Non-monetary items are measured at historical cost in a foreign currency.

Tax

The tax charge in the income statement includes both payable taxes for the period and changes in deferred tax. Deferred tax is calculated at the tax rate at 22 % on the basis of tax-reducing and tax-increasing temporary differences that exist between accounting and tax values, and the tax loss carried forward at the end of the accounting year. Tax-increasing and tax-reducing temporary differences that reverse or may reverse in the same period are set off and entered net.

In accordance with the exemption rules for small enterprises net deferred tax assets are not capitalized.

Balance sheet classification

Current assets and short term liabilities consist of receivables and payables due within one year, and items related to the inventory cycle. Other balance sheet items are classified as fixed assets / long term liabilities. Current assets are valued at the lower of cost and fair value. Short term liabilities are recognized at nominal value.

Fixed assets are valued at cost, less depreciation and impairment losses. Long term liabilities are recognized at nominal value.

Investments

Long-term shares and interests in companies where the ownership interest is less than 20% are assessed at acquisition cost. Investments are written down to fair value, if this is lower than the cost price.

Dividends, distributions, gains, losses and changes in the value of investments are recognised in the income statement under financial items.

Receivables

Receivables from customers and other receivables are entered at par value after deducting a provision for expected losses. The provision for losses is made on the basis of an individual assessment of the respective receivables.

Notes
